

Virtual School of Computational Science and Engineering (VSCSE)

2010 Summer Courses at RENCI
100 Europa Drive, Chapel Hill, NC
(plenty of free parking, on CH bus route D)

July 6 – 9: Petascale Programming Environments and Tools
August 2 -6: Proven Algorithmic Techniques for Many-core Processors

Participate live and interact with over 20 top-ranked institutions around the country. Up to 40 graduate students, post-docs and faculty can participate locally in these hands-on courses designed to build the skills needed to use advanced computational resources. Certificates will be awarded to students who complete a course.

Cost: \$100 per course (includes lunches and access to HPC resources)
Enrollment & registration information: <https://hub.vscse.org>
Questions: vscse@renci.org

For more information on RENCI participation in the VSCSE, see www.renci.org/vscse
